---

## PROFESSIONAL SUMMARY

Frontend Engineer with over 5 years of experience building scalable, responsive web applications using TypeScript, JavaScript, React, Angular.js, and modern frontend technologies. Experienced in developing reusable UI components, integrating REST and GraphQL APIs, and delivering high-performance applications within Agile environments. Strong understanding of component-based architecture, responsive web design, state management, API integration, and frontend performance optimization. Quick to learn new technologies and passionate about building maintainable, accessible, and user-centric applications.

---

## TECHNICAL SKILLS

**Frontend:** Angular.js | React | Next.js | Vue.js | TypeScript | JavaScript (ES6+) | HTML5 | CSS3 | Tailwind CSS | CSS Grid | Flexbox

**State Management:** Redux Toolkit | React Query | Zustand | Context API

**Backend & APIs:** Node.js | Express | REST APIs | GraphQL | Authentication | npm | Package Management

**Databases:** PostgreSQL | MongoDB

**Testing:** Jest | React Testing Library

**Performance & Development:** Git | GitHub Actions | Postman | CI/CD | Performance Optimization | Core Web Vitals | Agile | Figma

---

## EXPERIENCE

### Jamasoft Concepts Ltd (Remote)

June 2023 – January 2026

- Led frontend development of enterprise fintech applications using TypeScript and component-based frontend architecture.
- Developed scalable and maintainable user interfaces with React and Next.js while applying reusable component design principles transferable to Angular applications.
- Built responsive layouts using HTML5, CSS3, Tailwind CSS, Flexbox, and modern frontend best practices.
- Integrated REST and GraphQL APIs while implementing secure authentication and payment workflows

- Collaborated closely with UX designers, product owners, backend engineers, and stakeholders to deliver business-critical features.
- Optimized application performance, reducing page load times and improving user experience.
- Participated in sprint planning, code reviews, testing, estimation, and production releases.

**Technologies:**

TypeScript, React, Next.js, Node.js, REST APIs, GraphQL, Tailwind CSS, HTML5, CSS3

---

## **UX / Frontend Engineer**

### **Channel Info Tech (BPOSEATS)**

**January 2025 – September 2025**

- Converted complex Figma designs into production-ready web applications.
- Built reusable frontend components using TypeScript and modern JavaScript.
- Improved UI consistency through reusable design systems and shared component patterns.
- Integrated backend services and enhanced enterprise dashboard experiences.
- Worked closely with UX teams to deliver responsive and accessible interfaces.

**Technologies:**

Vue Js, TypeScript, Tailwind CSS, REST APIs, Figma, Jest, React Testing Library

---

## **Frontend Developer**

### **Deep Technology Ltd**

**June 2020 – December 2022**

- Developed responsive customer-facing web applications using React and JavaScript.
- Implemented reusable UI components and maintained scalable frontend codebases.
- Consumed REST APIs and collaborated with backend teams to deliver new features.
- Improved application reliability through testing and quality assurance practices.
- Worked within Agile teams delivering iterative product releases.

**Technologies:**

React, JavaScript, HTML5, CSS3, Tailwind CSS, REST APIs, Apollo Client, Jest, Postman

---

## **EDUCATION**

### **Higher National Diploma (HND), Computer Science**

Abia State Polytechnic, Nigeria
